TOO GOOD TO GO

Catherine Tsang

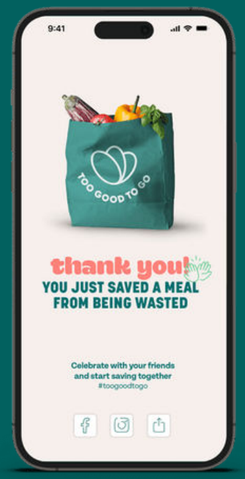

AGENDA

1. Business Overview
2. User Research & Pain Points
3. Product Ideation
4. Value Proposition & MVP
5. Feature Prototype
6. KPIs & OKRS
7. Release Plan
8. Financial & Stakeholder Alignment

WHAT IS **TOO GOOD TO GO?**

CORE PRODUCT

A mobile app that connects customers with local restaurants that want to sell their surplus food at a discounted price

HISTORY & IMPACT

Founded in 2015 in Denmark, Too Good To Go is a certified **B-Corp** that operates in **21 countries**, with **120M+ users** & **180k+ active partner businesses**

COMPANY MISSION

“To inspire and empower everyone to fight food waste together.”

UNIQUE SELLING PROPOSITION

Customers purchase **“Surprise Bags”** from their restaurant of choice → the food they’ll receive is a total mystery!

BUSINESS ANALYSIS

BUSINESS MODEL

Too Good To Go takes a **small commission** from each surprise bag sold, and participating businesses pay a periodic **participation fee** to stay on the platform

REVENUE

Primary revenue stream is from the surprise bag commission fee, Too Good To Go profits off serving as a **middleman platform** for customers and restaurants

PERFORMANCE

Drew in approximately **$162M in revenue** in 2023, no notable competition in unique sustainability/ food tech industry

RESEARCH BRIEF

MOTIVATION 1

To understand how users interact with Too Good To Go, identify common patterns of app usage, expose user frustrations, and extract user pain points to ultimately propose a product solution

SCOPE + METHOD 2

Conduted seven 15-25 minute interviews across a diverse group of Too Good To Go users via a semi-formal interview structure, adjusting questions based on user responses and encouraging honest anecdotes and past experiences

DEMOGRAPHICS 3

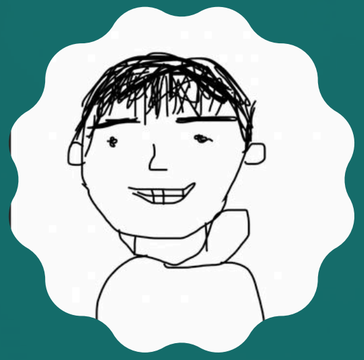

Users within the primary age demographic (18-44 years old) and outside of age demographic, current users and past users, users from different geographic regions → to gain a diverse understanding of user base and range of perspectives

USER INTERVIEWS

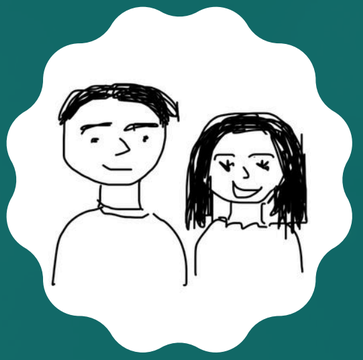

Lisa - 57 years old
Retired, San Francisco, CA
USED Too Good To Go in SF

Aanay - 18 years old
Student, New York, NY
USED Too Good To Go in NYC

Evan & Dion - both 41 years old
Poker Player & Journalist, San Francisco, CA
USES Too Good To Go in SF

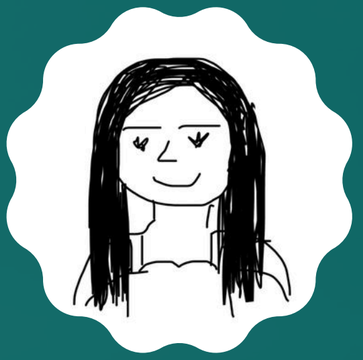

Lexie - 19 years old
Student, New York, NY
USED Too Good To Go in Austin, TX

Beatrix - 20 years old
Student, New York, NY
USED Too Good To Go in London

Jiya - 18 years old
Student, New York, NY
USES Too Good To Go in NYC

PRIMARY PAIN POINTS

1. Lack of User Comments
2. Over Randomization & Limited Accountability
3. Inconsistent Quality of Surprise Bags
4. Unreliable Restaurant Availability
5. Inconvenient Pickup Times
6. Discovery & Browsing Issues
7. Novely Wears Off

USER FRUSTRATIONS

Many of the interviewees' frustrations surrounded the unpredictable aspect of their surprise bags → Even though Too Good To Go's unique selling proposition is the "surprise," users didn't want a complete gamble with their purchases.

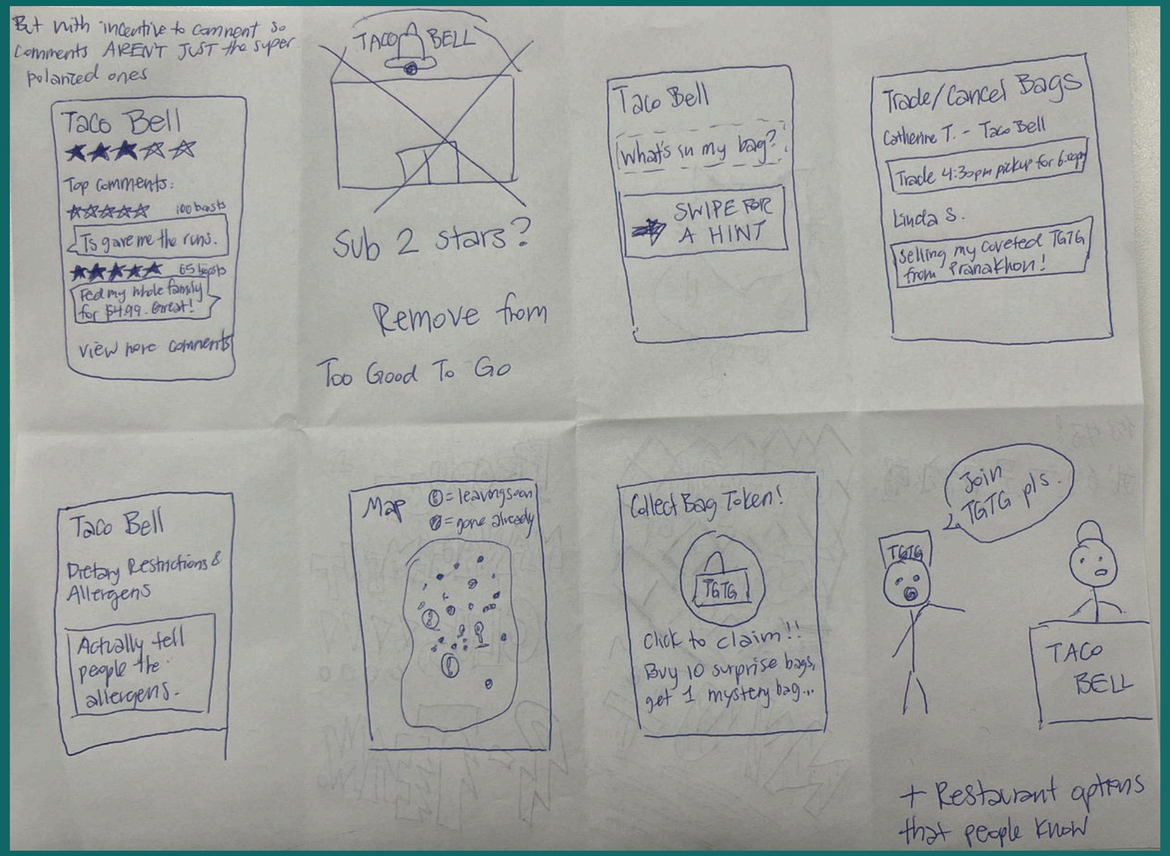

"You just leave yourself at the business's mercy...so you kind of absolve any like actual responsibility they have to serve you."
-Aanay

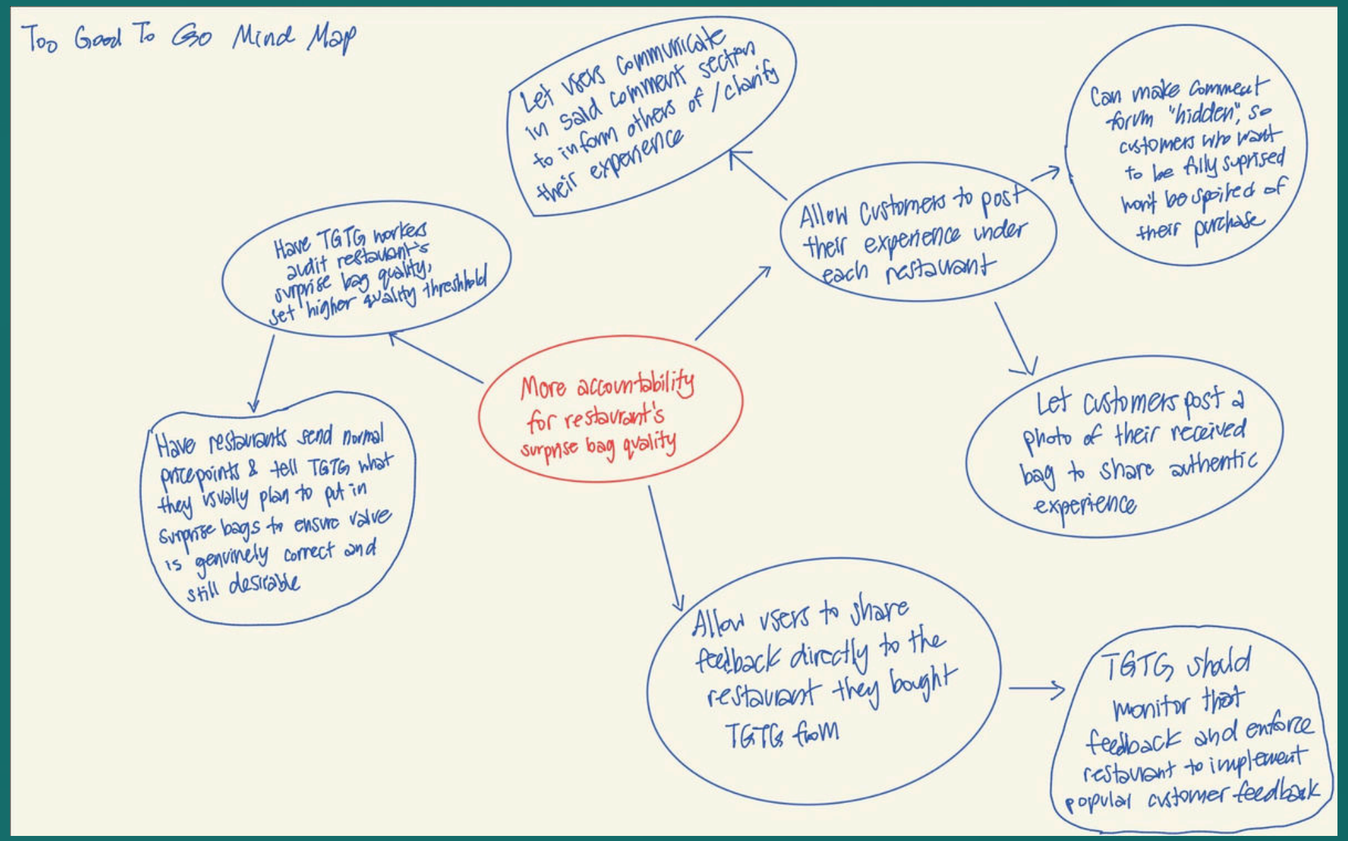

"Even though the novelty is fun, I wouldn't really want to just get a mystery bag from like a random place."
-Lexie

"There is a Facebook group about Too Good To Go that I used to frequent and check out for reviews also...it's strange that it generates feedback from users, but we don't know where it goes to."
-Evan & Dion

BRAINSTORMING IDEAS

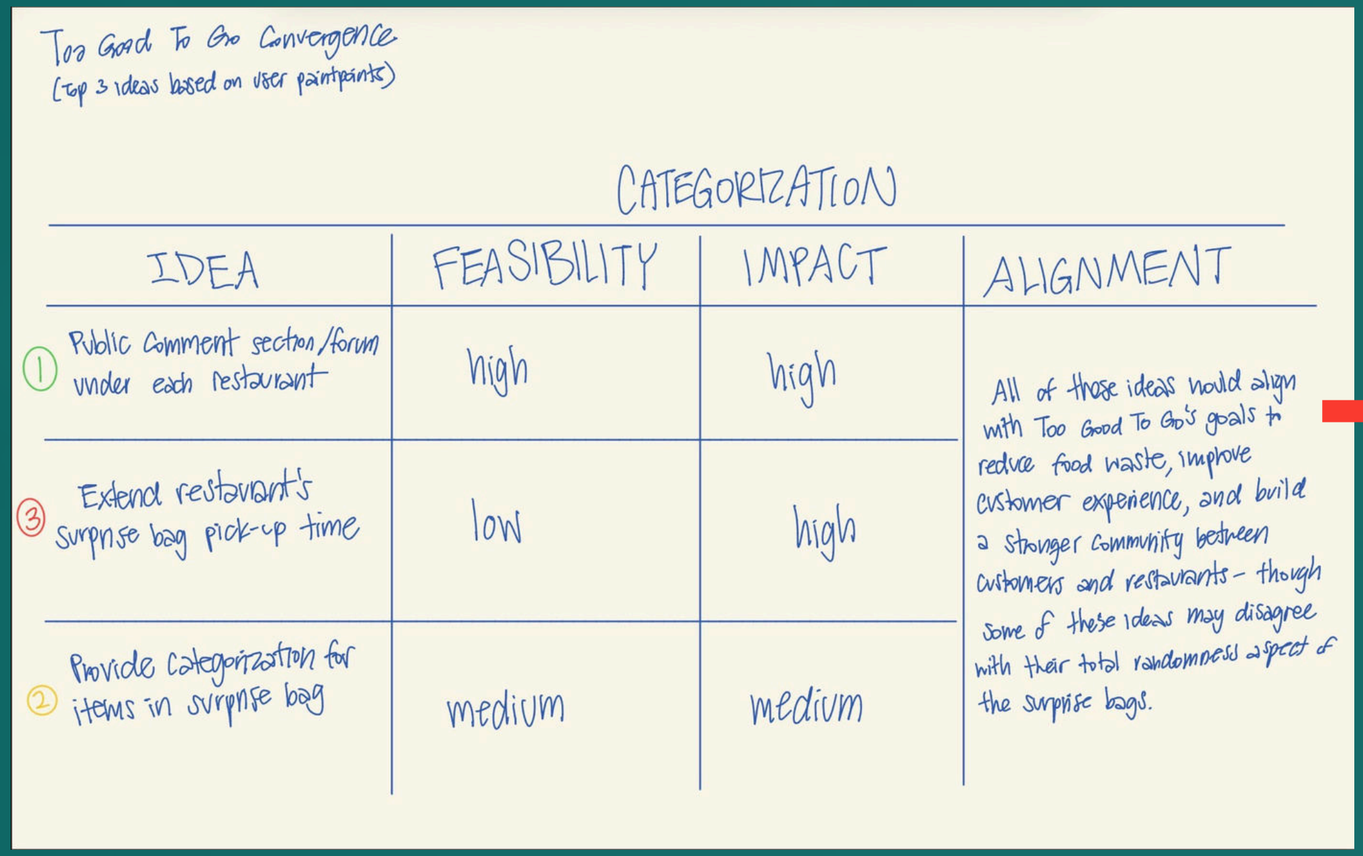

Crazy 8

Mind Mapping

CONVERGENCE & SOLUTION

Too Good To Go Convergence
(Top 3 ideas based on user paintpoints)

CATEGORIZATION

	IDEA	FEASIBILITY	IMPACT	ALIGNMENT
①	Public comment section/forum under each restaurant	high	high	All of those ideas would align with Too Good To Go's goals to reduce food waste, improve customer experience, and build a stronger community between customers and restaurants - though some of these ideas may disagree with their total randomness aspect of the surprise bags.
③	Extend restaurant's surprise bag pick-up time	low	high	
②	Provide categorization for items in surprise bag	medium	medium	

Categorization

Implement a public user comment section

Solution

VALUE PROPOSITION

For **value and quality-conscious Too Good To Go users** who want **greater transparency in their Surprise Bags**, **Too Good To Go** comment section is a new addition to the platform that **allows users to share their authentic experiences with a restaurant's Surprise Bags**. Unlike Too Good To Go's current model that only posts a restaurant's general star ratings, Too Good To Go comment section **encourages customers to clarify the gray area in their star ratings, answer other users' inquiries**, and **holds restaurants accountable to selling quality Surprise Bags**.

SUBFEATURE IDEATION & FEEDBACK ON VP

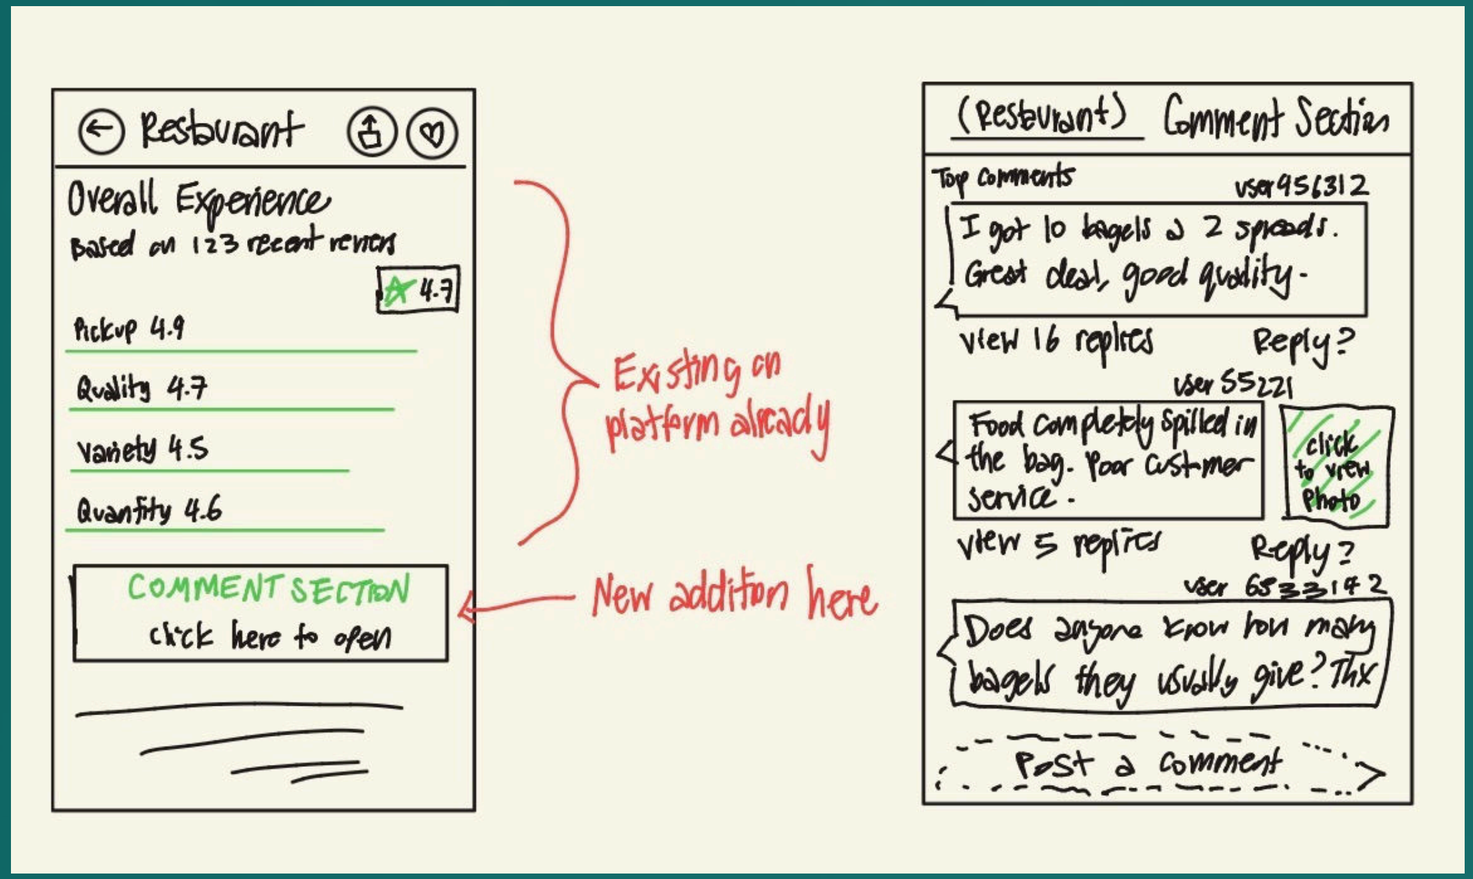

- Comment Section Expansion
- Swipe to Reveal Photos
- Reply to Other Comments & Threads
- Filter Comment Types
- Credit for Commenting Incentive

- Interviewees most enjoyed the idea of browsing the comment section before making a purchasing decision
- Preferred the subfeatures of “Reply to Other Comments & Threads,” “Filter Comment Types,” and “Credit for Commenting Incentive”

Why does Too Good To Go need this feature?

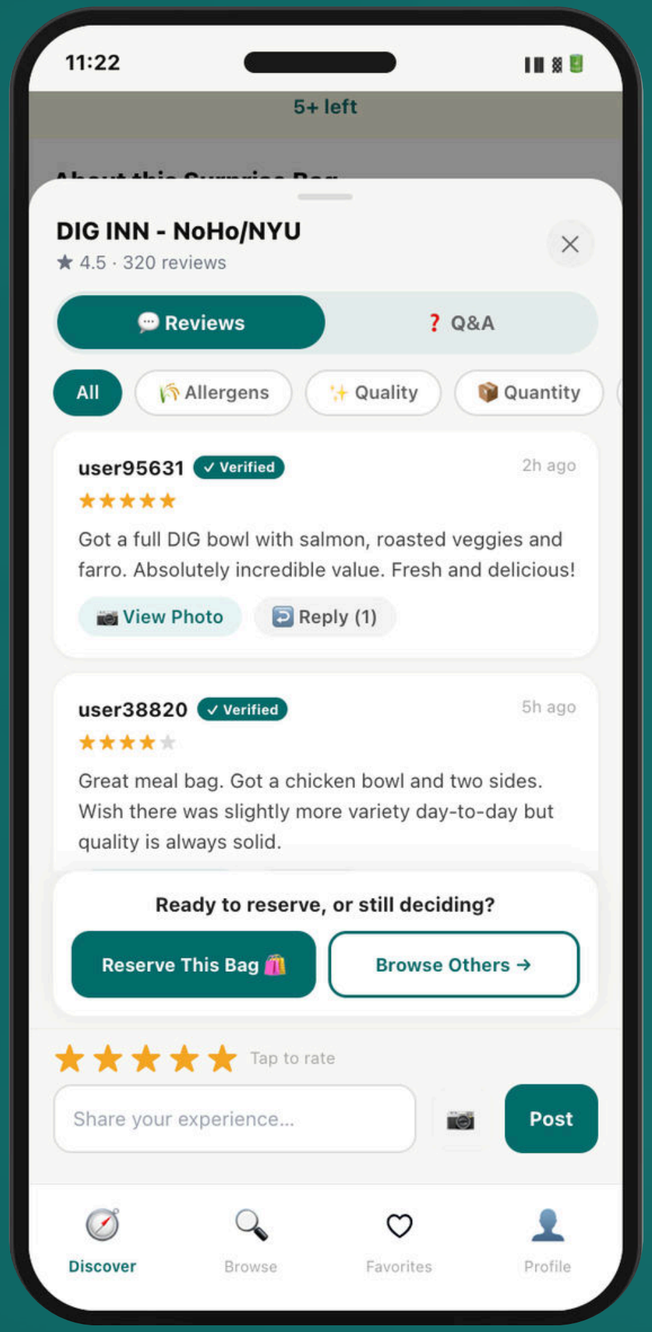

Key Outcome: Adding context to user reviews beyond a 5 star rating increases user confidence, reduces customer hesitancy, and provides both Too Good To Go and partner businesses higher credibility and transparency

DESIGN & MINIMAL VIABLE PRODUCT

The MVP to test users' potential engagement with an in-app comment section is to select a small group of restaurants and users and link an externally monitored public forum → understand how users interact with a commenting option to maximize user satisfaction once ready to implement

Proposed Feature Design

COMMENT SECTION PROTOTYPE!

KEY PERFORMANCE INDICATORS

POST-PICKUP COMMENT PARTICIPATION RATE

1

Examines users' willingness to engage in public forum and ease of use

FIRST TIME RESTAURANT TRIAL RATE

2

Determines whether increasing transparency will encourage users to try more new restaurants

RETENTION RATE AMONGST COMMENT VIEWERS

3

Investigate if comment section implementation decreases user churn and promotes more consistent app usage

OBJECTIVE & KEY RESULTS THROUGH COMMENT SECTION

Build an active Too Good To Go commenting community that reduces user uncertainty and converts higher trust into increased reoccuring purchasing behavior

KEY RESULT 1

3 months post launch: 15-20% post-pickup comment participation and comment interaction

KEY RESULT 2

6 months post launch: 25% increase in first-time restaurant trial in comment viewers

KEY RESULT 3

3 months post launch: 30% increase in repeat purchases for comment viewers

KEY RESULT 4

6 months post launch: 20% increase of average purchases per month in coment interactors

TOO GOOD TO GO

TOO GOOD TO GO X COMMENT SECTION FINANCIAL ALIGNMENT

Per Transaction Commission Fee & Business Platform Subscription

Comment section increases users/purchases = increases Too Good To Go's commissions & incentivizes more partner businesses

More bags = More revenue!

COMMENT SECTION RELEASE PLAN

Too Good To Go Comment Section Implementation

10 ideas | Roadmap focussed on outcomes Create a non-time-...

Columns: Roadmap | Group by + | Filter | Sort | Fields: 3

Sprint 1: May 2026-June 2026 — 3

- MVP Setup & Trial Group Outreach
- External Forum Setup on Facebook
- MVP Observations & Insights

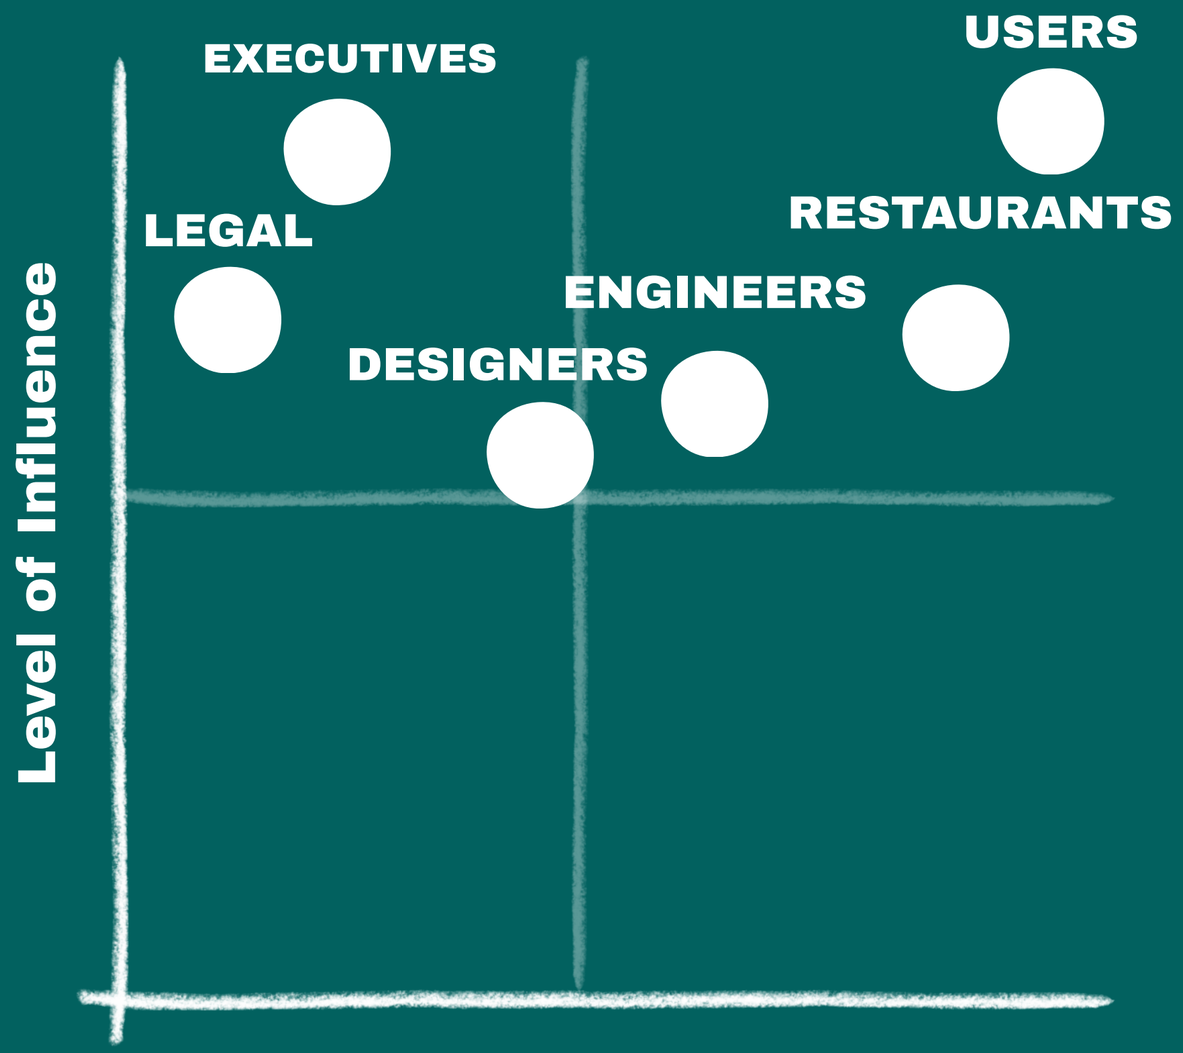

Sprint 2: June 2026-July 2026 — 3

- Backend Core Infrastructure
- Frontend Core Commenting UI
- Legal Review & Appropriation Settings

Sprint 3: July 2026-August 2026 — 4

- Threaded Replies & Q&A
- Comment Filtering
- Credit for Commenting Incentive
- Final Bug Fixes

STAKEHOLDERS

Too Good To Go must balance their customer stakeholders (users & restaurants), employee stakeholders (engineers & designers), and management/operation stakeholders (executives & legal)
